

Attn: FCC

I am an Indiana resident who has been registered with the Indiana Do Not Call Registry for two years. I love it!! Please rule against the CBA and Coalition of Telemarketers who are trying to weaken Indiana's Do Not Call List. We, as citizens, should be able to exercise our rights when we ask that we not be disturbed at home by telemarketers and it should not matter whether they are calling from in-state or out-of-state. We don't want to be bothered! Please consider the "little guy" and our rights to a little peace and quiet in our own homes.

Sincerely,

Kimberly Minnicus
